

To whom it may concern

6 May 2009

**Re: Aires Technologies Ltd.**

I can confirm that British Electric Lamps Ltd. (BELL Lighting) have been using the services of Aires Technologies Ltd. for approximately six years.

They have carried out upgrading work to our IT systems, provided support and upgraded the linkage between our offices. Their work has helped us improve business efficiency by smoothing out our IT operations.

I find them to be an honest and trustworthy company to deal with, and I would recommend their services to other companies.

Yours faithfully

Diane Gardener  
Office Manager
