Aires Technologies
340 Old York Road
London
SW18 1SS

Monday, 31 March 2008

Dear Sirs,

Testimonial for Aires Technologies

We've been using Aires Technologies since 2004 and are very pleased with the service we receive.

They were recommended to us by another company and we were very lucky to come across a company with such excellent knowledge of networking, servers, communications equipment and IT software and hardware issues, generally.

Aires are particularly helpful in times of need, when hardware breaks down, as it does in any setup and I can count at least 3 occasions when their staff have worked late into the night and at weekends to get us back on the road again, after some unforeseen problem has occurred.

Their skills are wide-ranging but we are always confident that they will fix the problems and get us working solutions to our hardware, communications and operating system solutions. Lately, we have begun using them for Internet Service Provision at our client sites and for the related IP CCTV and access control systems.

Very good firm and we are happy to recommend them.

Regards,

Roger McElroy

Director of Canonbury Management
